

Early Childhood Mental Health Network

Do you have a concern about your child's emotions, behavior or relationships?

Reach out for support.

All families want to give their children a strong foundation for life. For young children – infants, toddlers and preschoolers – positive mental health supports all aspects of growth and learning.

Contact an early childhood mental health clinic near you. Clinics will provide you with the right types of services, such as connecting you with a parent who has had experiences like yours.

All families are welcome, no matter what language you prefer to speak or your insurance situation.

To contact your nearest clinic, call:
